

Terra Rossa Adds Mint Oil to its Jordanian Infusion of Flavours

Terra Rossa, known for its Great Taste Award Winning Arabian Specialities, is pleased to announce that it is extending its range of Jordanian infused olive oils, Basil, Garlic, Lemon and Chilli, to include a delicious Mint Infused Extra Virgin Olive Oil.

Terra Rossa olive oils reflect the time-honoured methods of collection, preservation and extraction of the blessed olive fruit, combined with technological advances in packaging to keep their olive oil in excellent condition.

To ensure the highest levels of antioxidants, polyphenol and vitamins, the Mint olive oil is produced using none other than Terra Rossa's First Cold Pressed Extra Virgin Olive Oil which is made from half-green olives that are milled within 10 hours of being hand-picked. The olives are then stone crushed and cold pressed in order to enhance the quality of the oil, preserve its organoleptic and sensitive aromatic properties, at the same time ensuring that it has very low acidity.

It is this very same oil that that is then infused with the very best of fresh Jordanian Mint leaves to produce a gentle yet distinctly sweet flavourful oil that enhances the taste of any salad or dish that you use it with. Use it as a starter by dunking with freshly baked bread, as a marinade for fish or chicken, drizzled over salads, steamed vegetables, grilled Halloumi or barbequed fillets, couscous, pasta and mashed potatoes, or for making your own delicious bread.

The Mint oil is also the perfect accompaniment to Terra Rossa's Herby Zaatar Thyme, Spicy Dukka Coriander or Zesty Sumac Citrus herb mixes, which are traditionally eaten by dunking bread into the oil and then into any of the mixes. The herb mixes are available in tubs, tins, and in 1kg bags for catering purposes.

The Mint Oil is available in 250ml bottles and has an RRP of £7.65. It is also available in 2.7L PET bottles for those who wish to sell it in Demijohns, or use it for catering in their café, bar or restaurant as an appetiser, or to bake and cook with it. All products can be purchased directly from Terra Rossa.
